NSSE 2019 Major Field Report, Part I
Within-Institution Comparisons

Comparing your students' responses across groups of related majors within your institution

Note:

The Major Field Report was formatted for printing. When viewing on screen in Excel, some content may appear truncated or oddly formatted. This is normal. Increasing the zoom level or viewing the report in Print Preview will improve on-screen display.

About Your Major Field Report, Part I

NSSE data serve to identify institutional strengths and weaknesses in reference to selected comparison institutions, yet institution-level comparisons may not capture important variation in student engagement that can be found within key sub-populations such as major. NSSE urges institutions to "look within," calling attention to the need to examine variation in the student experience at your institution. This report provides an overview of your students' responses by groups of related majors.

NSSE results included in MFR, Part I

- Engagement Indicators
- High-Impact Practices
- Frequency Distributions
- Item Summary Statistics
- Respondent Profile

Related-Major Groups

Self-reported first and second (if applicable) majors were identified from the survey. Your institution had the option to customize how these majors were grouped, using up to ten related-major groups. Institutions choosing not to customize their major categories receive NSSE's ten default groups. The groups used in this report are shown on page 3. Because second majors were included, some respondents could be represented in more than one related-major category.

Sample

This report is based on information from all randomly selected or census-administered students for your institution. Targeted and locally administered oversamples and other non-randomly selected students are not included. Report Sample (if applicable) respondents are also excluded.

Class

Results are presented separately by institution-reported class level. Keep in mind that majors are student-reported. First-year students may report *intended* majors that have not yet been *declared*. Also, much of the first-year experience may take place outside of the major field. For these reasons, first-year results should be interpreted with caution.

Technical Requirements

Frequencies will be reported for related-major groups that have at least 5 respondents, but NSSE requires a group to have at least 20 respondents for statistical comparisons (e.g., means and t-tests). Although these are minimum requirements, keep in mind that any statistical result requires a sufficient number of respondents per category to produce a reliable estimate. Due to the disaggregation of results by student-reported major, *Major Field Report* results are unweighted.

Report Sections (Those marked with an asterisk are included if at least one related-major group includes 20 or more respondents.)

Composition of Related-Major Groups	How your NSSE 2019 <i>Major Field Report</i> categories were selected and which majors were included in each group.
Engagement Indicators*	Results on NSSE's ten Engagement Indicators (EIs) organized into four themes. See your <i>Engagement Indicators</i> report for more details.
High-Impact Practices*	Results on student participation in six High-Impact Practices (HIPs). See your <i>High-Impact Practices</i> report for more details.
Frequency Distributions	Response frequencies by related-major group for all survey items except demographics.
Item Summary Statistics*	Number of respondents, mean and standard deviation by related-major group for all survey items except demographics.
Respondent Profile	Response frequencies for all demographic questions for your institution by related-major group.

NSSE 2019 Major Field Report, Part I

Composition of Related-Major Groups

University of North Dakota

This page documents how your NSSE 2019 *Major Field Report* groups were selected and which majors were included in each related-major group. Students' self-reported first and second (if applicable) majors were assigned to a standard list of 139 majors. Institutions had the option to customize how these were grouped, using up to 10 related-major groups. Default choices reflected customization from a previous administration or absent previous customization, NSSE's standard grouping.

Date Confirmed: 8/20/2019

Selection Method: CUSTOM GROUPS—Your institution did not customize this year so we applied your prior-year selections.

Arts & Sciences (First-year N=178, Senior N=221)

Agriculture; Anthropology; Architecture; Art history; Arts, fine and applied; Biochemistry or biophysics; Biology (general); Botany; Broadcast communications; Cell and molecular biology; Chemistry; Communications (general); Computer information systems; Computer science; Criminal justice; Criminology; English (language and literature); Environmental science/studies; Ethnic studies; Family and consumer studies; Forensics; French (language and literature); Gender studies; General studies; Geography; History; Humanities (general); International relations; Journalism; Justice administration; Law; Liberal arts and sciences; Marine science; Mass communications and media studies; Mathematics; Microbiology or bacteriology; Multi, Interdisciplinary studies; Music; Natural resources and conservation; Natural science; Network security and systems; Other agriculture and natural resources; Other biological sciences;

Nursing & Pro Disc (First-year N=76, Senior N=86)

Nursing; Nutrition and dietetics; Social work

Business (First-year N=73, Senior N=102)

Accounting; Business administration; Business education; Economics; Entrepreneurial studies; Finance; Hospitality and tourism; Information systems; Information technology; International business; Management; Management information systems; Marketing; Military science; Organizational leadership or behavior; Other business; Political science; Public administration, policy; Supply chain and operations management; Technical, vocational studies

Other and Undecided (First-year N=155, Senior N=60)

Other, not listed; Undecided, undeclared

Aero and Engineering (First-year N=59, Senior N=149)

Aero-, astronautical engineering; Astronomy; Atmospheric science (including meteorology); Bioengineering; Biomedical engineering; Chemical engineering; Civil engineering; Computer engineering and technology; Earth science (including geology); Electrical or electronic engineering; Engineering (general); Industrial engineering; Materials engineering; Mechanical engineering; Other engineering; Petroleum engineering; Software engineering

Health Professions (First-year N=67, Senior N=52)

Allied health; Biomedical science; Dentistry; Health science; Health technology (medical, dental, laboratory); Healthcare administration and policy; Kinesiology; Medicine; Neuroscience; Occupational safety and health; Occupational therapy; Other health professions; Pharmacy; Physical therapy; Rehabilitation sciences; Speech therapy; Veterinary science

Education (First-year N=25*, Senior N=50)

Early childhood education; Education (general); Elementary, middle school education; Mathematics education; Music or art education; Other education; Parks, recreation, leisure studies, sports mgmt.; Physical education; Secondary education; Social studies education; Special education

(Category Not Used)

(Category Not Used)

(Category Not Used)

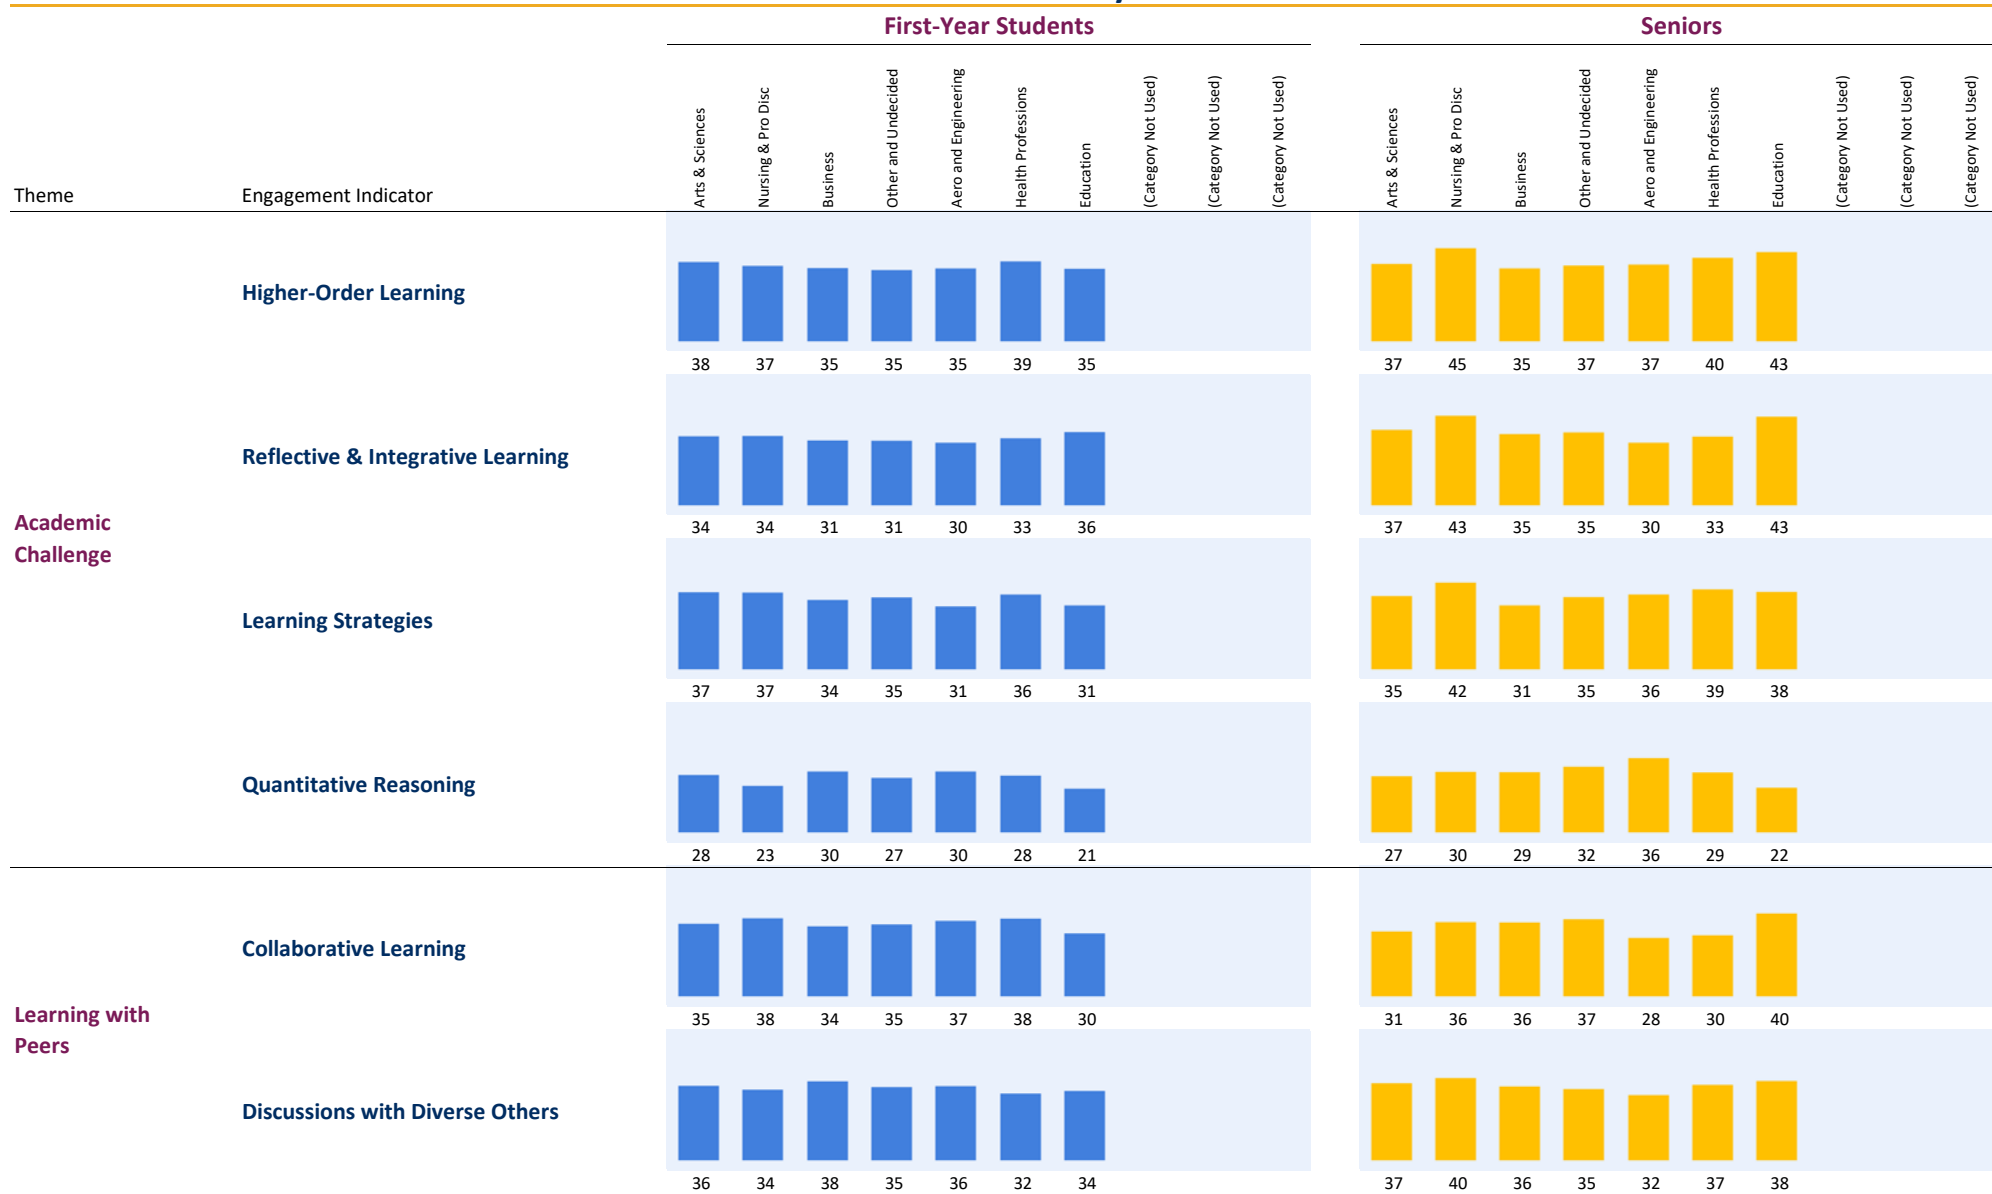

Unassigned Majors (First-year N=0, Senior N=0)

*Low N, interpret these results with caution.

NSSE 2019 Major Field Report, Part I: Within-Institution Comparisons

High-Impact Practices^C by Related-Major Group

University of North Dakota

This table displays the percentage of your students who either participated, or planned to participate, in a High-Impact Practice by major-field group. It also shows the percentage who participated overall (at least one, two or more).

*Participation for service-learning is the percentage who responded that at least "Some" courses included a community-based project.

**Results for first-year students are the percentage who responded "Plan to do."

Endnotes

- a. All results are unweighted. Engagement Indicator statistics for major categories with fewer than 20 respondents in a given class are not reported (i.e., the column is blank). EIs range from 0 to 60. For details on EI development and scores, refer to the NSSE website: nsse.indiana.edu
- b. A measure of the amount individual scores deviate from the mean of all the scores in the distribution.
- c. All results are unweighted. High-Impact Practice statistics for major categories with fewer than 20 respondents in a given class are not reported (i.e., the column is blank). For HIPs, we report the percentage of students who responded "Done or in progress" or "Plan to do," except for service-learning which is the percentage who responded that at least "Some" courses included a community-based project. For details on HIP development and scores, refer to the NSSE website: nsse.indiana.edu
- d. All results are unweighted. Frequencies for major categories with fewer than 5 respondents in a given class are not reported (i.e., the column is blank).
- e. Items that make up the Engagement Indicators include the following two-letter prefixes: CL = Collaborative Learning, DD = Discussions with Diverse Others, ET = Effective Teaching Practices, HO = Higher-Order Learning, LS = Learning Strategies, QI = Quality of Interactions, QR = Quantitative Reasoning, RI = Reflective & Integrative Learning, SE = Supportive Environment, and SF = Student-Faculty Interaction.
- f. These are the values used to calculate means. For the majority of items, these values match the codes in the data file and codebook. For items estimating number of papers and hours per week, the values represent actual units using the midpoints of response option ranges and an estimate for unbounded options.
- g. All results are unweighted. Item statistics for major categories with fewer than 20 respondents in a given class are not reported (i.e., the column is blank).
